SEIWA ELECTRIC MFG. CO., LTD.

Dear Valued Customers,

Notification of Discontinuance of Mercury Lighting, High-pressure Sodium Lighting, Incandescent Lighting and Some Ballast for HID Lamp.

Thank you very much for your patronage always.

We have been widening the line-up of LED lighting fittings, **STAR LED'S** series, which has high-efficiency performance and is able to be replaced from conventional lighting fittings.

Due to the Worldwide Minamata Convention on Mercury and also the promotion goal of spread of Solid State Lighting (semi-conductor lighting) which is posed by Ministry of Economy, Trade and Industry and Japan Lighting Manufacture Association, we are planning to discontinue mercury lighting fittings and incandescent lighting fittings of poor efficiency as well as high-pressure sodium lighting fittings whose demand is decreasing.

1. Discontinued Models

	Mercury	High-Pressure Sodium	Incandescent
Explosion-proof (Flame-proof) fittings (Ballast)	HZAB·HZTB series (AHHB·AHRB series)	NZAB·NZTB series (ANHB series)	IZAB·BZAB series
Increased-safety fittings (Ballast)	HGLB·HGPA(B) series (GHHB·GHRB series)	NGLB·NGPA(B) series (GNHB series)	-
Dust-ignition-proof Fittings	HKLB·HKPB series	NKLB·NKPB series	-
Vapor-tight fittings (Ballast)	HCLB·HCPA series (CHHA·CHRB series)	NCBL·NCPB series (CNHA series)	-
General use ballast (Inside-pole type)	FHHA·FSRA series	NNHA·FNMA·FSMA· FSHA70·FSHA1K series	-

2. Schedule

Manufacturing will be stopped in March 2017 (After April, we can supply as long as stocks lasts)

We are ready to offer substitutable LED lighting fittings for the above discontinued products. Should you have any inquiry, please contact us.

We appreciate for your understanding and continuing patronage.

Sincerely,

SEIWA ELECTRIC MFG. CO., LTD.
