Notification of Discontinuance

We have been widening the line-up of LED lighting fittings, **STAR LED'S** series, which has high-efficiency performance and is able to replace conventional lighting fittings.

Due to the promotion movement of spreading Solid State Lighting (semi-conductor lighting) which is claimed by Ministry of Economy, Trade and Industry and Japan Lighting Manufacture Association, the sales of HID lamps including mercury lamp are decreasing and procurement of parts will become difficult in the near future.

Accordingly, in addition to the discontinuance of mercury lighting and incandescent lighting fittings at the March 2017, we are planning to discontinue the ceramic metal halide lighting fittings as follows.

We sincerely apology for the any inconvenience to be caused and will appreciate for your kind understanding.

1. Models to be discontinued

	Ceramic Metal Halide
Explosion-proof (Flame-proof) fittings (Ballast)	SZAB・SZTB series (AMHB series)
Increased-safety fittings (Ballast)	-
Vapor-tight fittings (Ballast)	SCLB・SCPA series (CMHA・FSHA・FMHA・FSMA series)
General use ballast (Inside-pole type)	FSHA・FMHA・FSMA series
Lamp	CM○○○(F)・LE-W/BU, BH M(F)○○○LSH/U

2. Last Order

Mar 30th, 2018

We are ready to offer substitutable LED lighting fittings for the below discontinued products. Should you have any inquiry, please contact us.

We appreciate for your understanding and continuing patronage.

Sincerely,
SEIWA ELECTRIC MFG. CO., LTD.
